

## ICM Airport Technics Shortlisted in International Airport Review Awards 2018

*International Airport Review* has announced the 31-strong shortlist for its annual awards. Established to celebrate excellence in the industry, the inaugural awards in 2017 achieved phenomenal success, and in its second year, the *International Airport Review* Awards have once again proved the industry's willingness to showcase innovation.

The shortlist has been drawn from over 80 submissions, with **ICM Airport Technics** making the grade in the Passenger Experience and Seamless Travel - Supplier category.

Anne-Marie McKenna, Editor of *International Airport Review*, commented:

“Congratulations to ICM Airport Technics, whose submission highlighted their forward-thinking approach and willingness to adapt to a changing industry. We wish ICM Airport Technics luck in the awards and look forward to seeing what the future holds for this pioneering organisation.”

Industry response to the *International Airport Review* Awards has once again been strong, with over 12,000 members of the global airport community voting for their preferred submission. After counting the votes and assessing the merits of each entry, the expert editorial team at *International Airport Review* have selected the shortlist for each of the following categories: Airport of the Year, Airside Operations, Design Project, Environmental Awareness, Passenger Experience and Seamless Travel (Airports), Passenger Experience and Seamless Travel (Suppliers), Revenue Generation, Security Solution, Technological Solution, Terminal Operations and Accessibility.

The final 31 entries, including **ICM Airport Technics**, are now being reviewed by an independent judging panel comprised of industry experts. The winners will be announced in *International Airport Review's* December issue.
